Music Program

Bringing creativity and expression to youth who are learning to heal.

The Music Program is a course offered at Yellowstone Academy taught by Mr. Feeley. While the students do complete course work assigned by Mr. Feeley, he has created a space centered around individualism. After each assignment the student have free range to choose whether they want to learn a specific instrument or to record an album. To celebrate the students growth and success, Mr. Feeley will provide the students with a flash drive of all their songs at their graduation ceremony.

While the students earn school credit they are provided with an environment to explore their passions, finding a sense of belonging. Drums, Guitars, Ukulele, Piano, Recording Studio, at the childrens disposal. In addition to impromptu jam sessions in the classroom setting, the children are also able to show their skills off during a Talent Show and at sport events. This helps them overcome stage fright as well as accept both negative and postive criticism.

Mr. Feeley love and enthusiasm for music pours into his teaching style. He understands that each child is different and believes that music can help them be proud of their differences.
